A GUEST LECTURE ON

CLOUD COMPUTING

Guest Lecture on "Cloud Computing" conducted **on 18th August 2018** at Auditorium by Department of Computer Science and Engineering.

Resource Persons Profile

Dr.A.V.Krishna Prasad, Associate Professor has 18 years of teaching experience. His areas of interest are Databases, Cloud Computing and taught those subjects. He has good number of Journals, Book Published and 17 conferences (International/National), 3 books published. His acquaintance with the subject on cloud computing is more. He has received Gold Medal as part of Best Faculty in 2004 & 2005.

In the Guest Lecture the topics covered are: Distributed System Models and Enabling Technologies, Computer Clusters for Scalable Parallel Computing, Virtual Machines , Virtualization of Clusters, Data centers, Virtual machines provisioning and Migration services, On the Management of Virtual machines for Cloud Infrastructure, Enhancing Cloud Computing Environments using a cluster as a Service, Secure Distributed Data Storage in Cloud Computing.

Students participation in Cloud Computing Guest Lecture
