ORIENTATION DAY

A WARM WELCOME FOR NEW YEAR

SREYAS INSTITUTE OF ENGINEERING AND TECHNOLOGY (SRYS), organized an orientation program for the newly admitted Engineering students at the institute premises on 10-August 2019. The major objective of the program was to make the parents and students aware of the academic aspects of the course, the rules and regulations of the institute and ensuring parental participation in monitoring the performance and progress of the students.

The program was inaugurated by the Chairman Anantula Vinay Kumar Reddy In his address to the newly inducted students , said that one had to make distinctions between science, technology and engineering. While science is the generation of knowledge, technology is the application of the knowledge created by science and engineering uses technology to make products and services on a mass scale to solve the day to day problems faced by society. According to him, there were many pressing problems in the country that required lasting and sustainable solutions. Engineering students should try to find solutions to such problems by combining the attributes of curiosity, observation and innovative thinking. He urged the students to have clear goals, focus on the set goals, involvement in their work and discipline to be successful engineers who would ultimately contribute to the progress of the nation
