Memorandum of Understanding

Between

Sreyas Institute of Engineering and Technology

Beside Indu Aranya, GSI, Bandlaguda, Nagole, Hyderabad, Telangana 500068

&

Green Waves Environmental Solutions,

43/1 Mindhi Village, Gajuwaka, Visakhapatnam

Andhra Pradesh - 530026.

This Memorandum of Understanding (MOU) sets for the terms and understanding between the **Green Waves Environmental Solutions** and for promoting zero waste management (recycle, upcycle of ewaste, plastic and solid waste).

Background

According to E-waste management act 2016, the disposal of e-waste had to take care by only authorized recyclers, in Andhra Pradesh. Green Waves Environmental Solutions Company deals with collection and dismantling of E waste with its innovative & environment friendly disposal practices. Green waves Environmental Solutions is the first authorized e-waste collection and handling unit in Andhra Pradesh recognize by Andhra Pradesh Pollution Control Board.

Purpose

This MOU is for collection and handling of all type waste in by Green Waves Environmental Solutions. We promote Zero waste management with Sreyas institute of engineering and technology as per the requirement. Zero Waste being sent to local municipality or the landfills. The primary aim of Zero Waste concept is to reduce waste sent to landfill area and there by promoting a **HEALTHY ENVIRONMENT**.

Creative Reuse's Waste upcycled household items by Green Waves Environmental Solutions.

- Green Waves Environmental Solutions had brought students together for working towards waste management by upcycling .
- Students are blessed with creative design of upcycling of waste.
- Green Waves Environmental Solutions will conduct classes with regards to upcycling of waste.
- Sreyas institute of engineering and technology (SIET) and GWES (Green Waves Environmental Solutions) joining hands together towards zero waste management through recycle and up cycle.
- Sreyas institute of engineering and technology (SIET) provides dry waste and GWES helps in upcycling of waste.
- Green Waves Environmental Solutions will conduct free workshops on Green Conservation & sustainable practises accordingly.

Upcycling isn't just the practice of transforming old materials into useable objects; it's the process of breathing a new lease of life into well used and loved items to give them a new story and personality. All this while at the same time creating something that is useful, beautiful.

Recycling is the process of taking waste, generally consumer materials – plastic, paper, metal or glass – breaking it down and turning it into a reusable product. Upcycling involves turning an unwanted product into a better quality product. The big idea is that items made from recycled materials can be even more desirable than the original products, which can only be a good thing for sustainable production with environmental consciousness.

Green waves environmental solutions design task up-cycling t-shirts, jeans into bags is going well. We collect waste and unused clothes from public and recycle into cloth bag. A green initiative from Green waves environmental solutions towards plastic free world.

Green wave's environmental solutions, we use our creative skills to revive, restore & repurpose to create individual pieces. We also offer an upcycling service. Decorative mat made out of waste single

use Plastic polytene covers. We collect waste single use plastic covers, after that we wash it and dry it. We make the decorative mats in different size or in different shape.

They by joining our hands towards less litter and single use plastic free world.
