District level Awareness session on Role of students in Strengthening Democracy and Ethical voting under SVEEP

Vote is a powerful weapon for the people in democracy. Now-a-days the people, exclusively the youth are not going to vote which makes the percentage of voting less. To overcome this problem Sreyas Institute of Engineering and Technology came out with an idea of making an event with the collaboration of NSS unit (SIET) and Samskruthi foundation named "District level Awareness session on Role of students in Strengthening Democracy and Ethical voting under SVEEP". The event has started at 10.00AM at SIET auditorium. The dignitaries were college Principal (Dr. Suresh Akella) and Vice-chairman (A Hriday Reddy) along with a speaker (Mr Ajay Rawul). The principal and the vice chairman had addressed the gathering and the speaker Mr. Ajay Rawul who is a entrepreneur and widely known for his business acumen and knowledge in Entrepreneurship, Marketing, Management of Technology and International Marketing. Other focusses are Technology enabled business; Rural healthcare services/adaption of ICT enabled healthcare services. He has written references for various newspapers and had attended various several conferences and appeared in various TV shows regarding management oriented topics. He is also a research scholar on digital business and his areas of research are Technology Enabled marketing and E-Healthcare products. He had spoken about the age percentages which means from particular age how much percentage of votes are registered. From 18-25 only 10% of votes are polled in polling booth; from 26-35 only 10% of votes are polled in polling station and >35 more than 25% votes are polled in polling station. This ratio should be changed. By this defect so many wrong politicians are coming to government and making use of that position for themselves not for the person, which gives a lot of loss to the poor people. To overcome this defect we should use our voting and the voting percentage in every polling station will be increased. Vote of thanks has given by Mrs. Saritha Reddy. Then after the event ended by signatures on the Wall of Democracy and certificate distribution. The event ended at 01.30PM.

NATIONAL VOTERS DAY:

Election Commission of India celebrated the 9th National Voters' Day (NVD) across the country on 25th January. The theme for the 9th National Voters' Day is 'Inclusive and Qualitative Participation'. The Commission's objective through NVD is to increase enrollment of voters, especially of the newly eligible ones.

Enrollment of 18 to 19 year age group has always been a matter of concern. The National Voters' Day is also utilized to spread awareness among voters regarding effective participation in the electoral process and for the infusion of democratic values among the students who are the future electors of the country.

15 student volunteers attended a session at Ravindra Bharathi and were asked to create awareness in their colleges and surroundings about the individual rights and responsibilities and how one can be part of successful government thus leading to the development of the country.

Outcome: NSS volunteers from professional colleges can create better awareness on the topic by using technology and help the society to grow.
