Some of the important aspects of the Seminar

One day Seminar was delivered Mr. Y Vijay Kumar. Sir, completed his engineering degree from Indian Institute of Industrial Engineering. He presently Academic In – Charge at Radiant Institute of Technology. He has over ten years of experience in training the trainees on machining (CNC & Conventional), tool & die making and in quality inspections. He has also worked with Corvaglia Mould AG a Swiss Company.

Speaker has mentioned the career opportunities in Manufacturing in India as well abroad. He has focused on employability skills and interpersonal skills the students need to learn for grabbing better opportunities. He emphasized that latest technologies like artificial intelligence, advanced robotics, automation, analytics, and the Internet of Things will definitely transform the manufacturing field and will create more jobs with varied profiles. He fostered the students to learn these new technologies and take part in the ongoing fourth industrial revolution.
