Every thing is good

Everything is fine

No suggestions

Simply good

To improve practicals

Nice

No comment

Ok

Nil

Good teaching

Interact with students and understand students

Need time for internet browsing and library. 2.need atleast half day for sports and club activities. 3.digital explanation would be helpful for difficult topics.

A bit more extra curricular activities or events may help students to let their stress out

1.Don't change the facuilty in midfle of the course. 2. Make management cooperative with students. 3. Make a effective time table

encouragement,motivation much needed

1. Teaching should include practical approach and faculty always prepare us for exam not for the need of real world, this should be changed

Showing partiality towards some of students

Have to encourage each and every student without showing partiality and they will not give marks based on work. They should give internal and external marks fairly

good

Provide digital classes, provide interships, provide programming classes

Allow students to contact you after college time. Teaching should not belong only to a room. You can invite them to the library, computer lab etc. Advice students for their career and academic opportunities. Share your personal experience to let them understand the difficulty in real life.

Excellent

Student to student interaction programmes are must be held on every week

No need of any suggestions in their way they are good

To guide the students in a perfect and simple way.

Teaching in friendly manner and alloting the weak and brilliant student as group and giving importance for them in teaching

Improving knowledge

Very good

Practical teaching

1)THEY NEED TO HAVE BRIEF IDEA ABOUT THE CONCEPT BEFORE TEACHING US 2) EVALUATION OF MARKS SHOULB BE FAIR FOR ALL MAINTAIN EQUALITY IN EVALAUATION

Teaching the content in an easier way so that even an average student can understand it easily.

#in labs not only execution of experiments but we want some explanation about the experiment . #we want some 2-3 hours in a week to utilise library facility.#weekly an hour to interact with faculty regarding subject doubts

Use more real time examples and explaining the concepts not only in theoretical way but also in practical way

Respected Sir/madam could u please use projecter for explaining classes because we can understand the concept thourghly thanking you sir/ madam

Friendly communication with students

Well trained and senior Faculty should be provided for every subject

They should start teaching using projector ,mean while they should let us the use of concept in our daily lives

Try to get companies offering internships.

ICT tool to be used for effective learning of student (in a practical way). Interacting with students not only for textbook or syllubus learning but also for extra knowledge extraction.

Fairness of the internal evaluation process by the teachers; No partiality should be shown. The teachers should illustrate the concepts through examples and applications.

There are no suggestions our institution is very good in all the aspects

Have to communicate with the students

Encouraging students, effective way of teaching,and supporting

1. Be free and friendly with students don't take the situations personal and don't bulid personal grudges on students 2.understand the student in ant situation when they are facing and try ti support them but don't push them till extent danger except these over all teaching is veryy good we have a excellent faculty in our institute just do these chang

Please encourage for crt classes to train us some softskills

Every student doubts should be cleared, faculty should hear out the students

Explain topics in an easy way

Very good

Improvement,Understanding,

1. Real time examples 2. Should be more precise 3. Practical learning

1. I always wanted to learn the things in the practical way to help us to understand even more

All are good

Level of approach bit more needed in teaching and freedom to ask doubts and motivation

Try to teach practical knowledge,try to communicate with all the students,don't show the partiality

No improvements everything is perfect

Showing partiality towards some students and not completed syllabus

Goood

No answer

Interaction with students is not good.Be friendly with students and ask their weakness and teach students accordingly to their understanding levels.

Regular , practical

No need of any suggesttion they are good in their own way

Frst of all do avoid partiality among students..Treat the students as all r equal..

No need of any suggestions they are good in there own way

Explain with applications

software teaching should be improved by keeping crt classes

Differentiate between students, teachers are always helping and kind.

1. In my personal point of view I think students will understand the teachers use more number of examples regarding the concepts. 2. thing's it would be better to make practice or do practical activities

The institute is great with what it is have now

To give explanation in a digitallised manner

Improve

1.Teachers should treat everyone equal 2.Interact with every student as some may be unable to ask question directly 3. Internal marks are awaded according to their performance not as per the how student interacting/close with them 4.please remove my mentor she's is not at all useful/helpful for us

Communication, better notes,

Provide internships and programing classes.

Usage of technology ,interactive sessions

Introduce programming language like python instead of library sports or creditless subjects

Very good teaching

Encourage the students in their interested field. Tqq !

Should teach from basics

All facilities are well and good teaching

None

Usage of the projector

Give chance duller to explore

Need to improve prectical learning

Need to improve teaching way

We're having ah problem with problematic subjective things, except that everything is good

●Should concentrate on average students also, They should revise the topics for the revision purspose .

I think we want more practical classes for more easy understanding .
