

## REPORT ON IDEATHON

**Title of the event:** IDEATHON

**Date:** 27/03/2024

**Venue:** Sreyas Institute of Engineering and Technology, Hyderabad.

**Number of participants:** 55 students from all the branches.

**About the event:**

The Ideathon event at Sreyas Institute of Engineering and Technology organized by the Department of Electronics and Communication Engineering was designed to encourage creativity, innovation, and entrepreneurial thinking among students. This platform provided participants with an opportunity to brainstorm and develop innovative solutions to real-world problems. The event consisted of several key phases. Firstly, the event began with an introductory session where participants were briefed on the rules, evaluation criteria, and the theme of the Ideathon. Students formed diverse teams, mixing different engineering disciplines to promote varied perspectives and expertise. Teams were given a set timeframe to brainstorm and develop their ideas. Mentors provided guidance and support throughout this phase, encouraging participants to think critically and creatively. Each team presented their idea to a panel of judges. Presentations included an overview of the problem, the proposed solution, potential impact, and a basic implementation plan. Following each presentation, judges engaged teams in a Q&A session to further assess the viability and creativity of their ideas. The team with creative thing and the one who gave problem solving ideas will be awarded.

**Conclusion:**

The Ideathon event at Sreyas Institute of Engineering and Technology was a significant success, promoting innovation and collaborative problem-solving among students. The organizers are looking forward to making this an annual event, aiming to further enhance participation and the variety of challenges presented.
